

Name: _____

Date: _____

Attributes 3D Shapes

Solve for x. Show your work.

1. How many vertices does a rectangular prism have?
2. How many vertices does a cylinder have?
3. How many vertices does a cone have?
4. How many vertices does a cube have?
5. How many edges does a rectangular prism have?
6. How many edges does a cube have?
7. How many edges does a rectangular prism have?
8. How many faces does a sphere have?

Attributes 3D Shapes – Answer Key

1. How many vertices does a rectangular prism have?
2. How many vertices does a cylinder have?
3. How many vertices does a cone have?
4. How many vertices does a cube have?
5. How many edges does a rectangular prism have?
6. How many edges does a cube have?
12
7. How many edges does a rectangular prism have?
8. How many faces does a sphere have?
